Ukraine Country Programme Evaluation (2018-2022)	2021	Ukraine CO	Country Programme Evaluation (CPE)	EECA	2018-2022	Strategic Recommendation 1	Considering the new UNFPA Strategic Plan 2022-2025 and its focus on accelerating and scaling up the already achieved results in order to reach the 3 transformative results, along with opinions of evaluation respondents, it will be important for UNFPA Ukraine to focus on interventions within areas, where significant achievements were reached (GE/GBV) and disseminate them to other regions and municipalities, as situation dictates. At the same time, it is important to keep focus on SRH and P&D areas, as UNFPA has unique expertise and mandate in these areas and is the only development actor with such a focus. Also, if opportunity comes, the CO should accelerate good achievements and practices reached in partnerships with government (especially at local level), civil society, business (on specific issues like GBV), academia, and public figures (like the Honorary Ambassador, Masha Efrosinina and the Office of the First Lady) in recent years and CPs.
