China Country Programme Evaluation (2021-2024)	2024	Country Programme Evaluation (CPE)	AP	Recommendation 1: Continued advocacy by UNFPA CO for increased focus on LNOB and reaching the furthest behind.	1 (i) Advocate for the scaling up of successful initiatives such as the integrated SRHR model demonstrated in selected counties of Qinghai and Shanxi provinces; the CSE livestreaming initiatives to train both teachers and students, in other underserved areas. These could be scaled up using Government funds and technical assistance from UNFPA	Accepted	High	1.1 The China CO will identify underserved areas where the integrated SRHR model and CSE initiative could be rolled out, and formulate an advocacy strategy for scale-up.	1.1 The China CO will identify underserved areas where the integrated SRHR model and CSE initiative could be rolled out, and formulate an advocacy strategy for scale-up.
China Country Programme Evaluation (2021-2024)	2024	Country Programme Evaluation (CPE)	AP	Recommendation 1: Continued advocacy by UNFPA CO for increased focus on LNOB and reaching the furthest behind.	1(ii) UNFPA's focus on vulnerable groups which is based on a human rights approach and LNOB/RFB principle, should be broadened by looking at vulnerability from an intersectionality perspective. By doing so, better targeting of real needs can be identified. Such analysis should ideally be done as part of the preparation for the next programme cycle	Accepted	High	1.2 The China CO will participate in the ongoing Common Country Analysis to examine how key socio-economic factors intersect to create unique vulnerabilities. This analysis will inform preparation of the next country programme.	1.2 The China CO will participate in the ongoing Common Country Analysis to examine how key socio-economic factors intersect to create unique vulnerabilities. This analysis will inform preparation of the next country programme.
China Country Programme Evaluation (2021-2024)	2024	Country Programme Evaluation (CPE)	AP	Recommendation 1: Continued advocacy by UNFPA CO for increased focus on LNOB and reaching the furthest behind.	1(iii) UNFPA to work with NBS and agencies that collect administrative data to improve the availability of disaggregated data in general and on vulnerable population groups in particular both to identify these groups but also to track progress on the 3 zeros is such data is available	Accepted	High	1.3 The China CO will continue to partner with NBS to improve availability of disaggregated data and track progress on the three zeros, particularly for vulnerable population groups.	1.3 The China CO will continue to partner with NBS to improve availability of disaggregated data and track progress on the three zeros, particularly for vulnerable population groups.
China Country Programme Evaluation (2021-2024)	2024	Country Programme Evaluation (CPE)	AP	Recommendation 1: Continued advocacy by UNFPA CO for increased focus on LNOB and reaching the furthest behind.	1(iv) UNFPA could advocate and coordinate with Government and other partners to push further disability perspectives.	Accepted	High	1.4 The China CO will continue to collaborate with government partners and other stakeholders to advance policies and programs that support inclusion and well-being of people with disabilities.	1.4 The China CO will continue to collaborate with government partners and other stakeholders to advance policies and programs that support inclusion and well-being of people with disabilities.
China Country Programme Evaluation (2021-2024)	2024	Country Programme Evaluation (CPE)	AP	Recommendation 2: UNFPA CO should proactively strengthen its own capabilities and sharpen its strategy on SSTC, taking advantage of the progress made during CP9 and the Government of China's keen desire to participate in SSC with developing countries.	2(i) UNFPA CO should research and identify together with other UNFPA COs what the real needs are for technical or financial support from China's SSC mechanisms, on the basis of which sustainable proposals can be presented;	Accepted	High	2.1 The China CO will continue to work with other UNFPA COs and government partners, to identify priority needs for technical support through China's SSC mechanisms.	2.1 The China CO will continue to work with other UNFPA COs and government partners, to identify priority needs for technical support through China's SSC mechanisms.

China Country Programme Evaluation (2021-2024)	2024	Country Programme Evaluation (CPE)	AP	Recommendation 2: UNFPA CO should proactively strengthen its own capabilities and sharpen its strategy on SSTC, taking advantage of the progress made during CP9 and the Government of China's keen desire to participate in SSC with developing countries.	2 (ii) CO in consultation with relevant national partners, should identify China's own potential needs which could be resolved through the SSC modality;	Accepted	High	2.2 The China CO will continue to collaborate with government partners to identify priority areas for cross-country exchange and learning that could benefit from China's SSC modalities and mechanisms.	2.2 The China CO will continue to collaborate with government partners to identify priority areas for cross-country exchange and learning that could benefit from China's SSC modalities and mechanisms.
China Country Programme Evaluation (2021-2024)	2024	Country Programme Evaluation (CPE)	AP	Recommendation 2: UNFPA CO should proactively strengthen its own capabilities and sharpen its strategy on SSTC, taking advantage of the progress made during CP9 and the Government of China's keen desire to participate in SSC with developing countries.	2 (iii) the needs identified in (i) and (ii) above, will have to be articulated and presented as part of medium term support plans that includes specific SS initiatives, to be agreed upon by the Chinese Government at the beginning of the next CP cycle. As this would involve more coordination responsibility, it would involve strengthening the SSC team at the CO. This recommendation would also involve cooperation from APRO and other regional offices;	Accepted	High	2.3 The China CO will develop an agreement on priorities for South-South Cooperation with government partners. The CO will also review capacities needed to deliver on the new Country Programme, including for support to South-South Cooperation, in collaboration with the Regional Office.	2.3 The China CO will develop an agreement on priorities for South-South Cooperation with government partners. The CO will also review capacities needed to deliver on the new Country Programme, including for support to South-South Cooperation, in collaboration with the Regional Office.
China Country Programme Evaluation (2021-2024)	2024	Country Programme Evaluation (CPE)	AP	Recommendation 2: UNFPA CO should proactively strengthen its own capabilities and sharpen its strategy on SSTC, taking advantage of the progress made during CP9 and the Government of China's keen desire to participate in SSC with developing countries.	2 (iv) have a dedicated outcome area for SSC especially when SSC components are found across all programme areas.	Accepted	High	2.4 The new Country Programme will align to the UNFPA Strategic Plan and the UN Sustainable Development Cooperation Framework, with a focus on SSC as a cross-cutting priority.	2.4 The new Country Programme will align to the UNFPA Strategic Plan and the UN Sustainable Development Cooperation Framework, with a focus on SSC as a cross-cutting priority.
China Country Programme Evaluation (2021-2024)	2024	Country Programme Evaluation (CPE)	AP	Recommendation 3: UNFPA CO needs to take advantage of the strengths of the UN system and its coordination mechanisms to advance joint policy engagement, advocacy and support on critical issues such as GEWE, rights, CSE, equitable access of vulnerable populations including PWDs to public services, social norms change, and population development issues.	3 (i)(ii) UNFPA CO to consider looking into more opportunities for inter-agency collaboration and joint programming within the UN Country Team in the process of developing the next UNSDCF (2026-2030) in order to realize the LNOB/ RFB principle. 3 (ii) joint initiatives and programmes would be more cost effective and cost efficient. Joint programming would be more possible now given the establishment of the UN in China Pooled Fund for SDGs;	Accepted	High	3.1 and 3.2 The China CO will continue to strengthen interagency collaboration and joint programming, including by co-leading relevant results groups under the new UN Sustainable Development Cooperation Framework.	3.1 and 3.2 The China CO will continue to strengthen interagency collaboration and joint programming, including by co-leading relevant results groups under the new UN Sustainable Development Cooperation Framework.
China Country Programme Evaluation (2021-2024)	2024	Country Programme Evaluation (CPE)	AP	Recommendation 3: UNFPA CO needs to take advantage of the strengths of the UN system and its coordination mechanisms to advance joint policy engagement, advocacy and support on critical issues such as GEWE, rights, CSE, equitable access of vulnerable populations including PWDs to public services, social norms change, and population development issues.	3 (iii) as part of the preparation for CP10, UNFPA could also consider a review of current modalities of policy engagement in order to ascertain the most cost effective and successful modes of providing policy support, that is, to find out what has worked and what has not.	Accepted	High	3.3 As part of the process of developing the new Country Programme, the China CO will review modalities for policy engagement to identify and build on successful approaches..	3.3 As part of the process of developing the new Country Programme, the China CO will review modalities for policy engagement to identify and build on successful approaches..

China Country Programme Evaluation (2021-2024)	2024	Country Programme Evaluation (CPE)	AP	Recommendation 4. UNFPA should consider increased technical support for population and development issues in particular population ageing and low fertility which are areas of national policy concern.	4 (i) continue to use a life-cycle approach to address the needs of individuals at every stage of life which would enable the formulation of inclusive policies that empower not only older persons but also youth and women, fostering positive attitudes toward marriage and childbearing;	Accepted	High	4.1 The new Country Programme will continue to apply a life-cycle approach to promote inclusive policies that empower women, older persons, young people and vulnerable groups.	4.1 The new Country Programme will continue to apply a life-cycle approach to promote inclusive policies that empower women, older persons, young people and vulnerable groups.
China Country Programme Evaluation (2021-2024)	2024	Country Programme Evaluation (CPE)	AP	Recommendation 4. UNFPA should consider increased technical support for population and development issues in particular population ageing and low fertility which are areas of national policy concern.	4 (ii) (iii) investing in evidence-based approaches and fostering cross-regional collaboration will help formulate workable and innovative solutions; 4 (iii) By focusing on these areas, UNFPA can support the development of comprehensive social support systems and inclusive economic policies that empower older persons, individuals, women, and youth;	Accepted	High	4.2 and 4.3 The China CO will continue to advance evidence-based approaches and foster cross-regional collaboration to strengthen comprehensive social support systems and inclusive economic policies that respond to population ageing and low fertility.	4.2 and 4.3 The China CO will continue to advance evidence-based approaches and foster cross-regional collaboration to strengthen comprehensive social support systems and inclusive economic policies that respond to population ageing and low fertility.
China Country Programme Evaluation (2021-2024)	2024	Country Programme Evaluation (CPE)	AP	Recommendation 4. UNFPA should consider increased technical support for population and development issues in particular population ageing and low fertility which are areas of national policy concern.	4 (iv) broader partnership could be developed including with the other line Ministries such as the Ministry of Civil Affairs, that are accountable for social assistance and services, protection of the rights and interests of older persons and care services, as well as with ACWF and ACYF (with whom we already are engaged) that respectively work on women and youth so that more parties are working coherently on these issues. The focus would be on broader concerns, not only of ageing and low fertility but also attitudes of adolescent and youth on marriage and childbearing, etc. that have a relevance to fertility and ageing;	Accepted	High	4.4 The China CO will strengthen collaboration with the Ministry of Civil Affairs, ACYF and ACWF to promote cross-sectoral approaches to address factors relating to low fertility and ageing.	4.4 The China CO will strengthen collaboration with the Ministry of Civil Affairs, ACYF and ACWF to promote cross-sectoral approaches to address factors relating to low fertility and ageing.
China Country Programme Evaluation (2021-2024)	2024	Country Programme Evaluation (CPE)	AP	Recommendation 5. UNFPA CO should engage and broaden its partnership with the private sector to benefit from knowledge sharing, innovative solutions and resources.	5 (i) UNFPA could create platforms for knowledge sharing and collaboration with representatives from the private sector and private foundations including information about workshops, conferences, and digital forums. Such platforms can facilitate the dissemination of best practices and innovative solutions to address population and development challenges both from UNFPA and the private sector;	Accepted	High	5.1 The China CO will strengthen engagement with the private sector, including through convening of forums and platforms to highlight best practices and innovative solutions to address population and development challenges.	5.1 The China CO will strengthen engagement with the private sector, including through convening of forums and platforms to highlight best practices and innovative solutions to address population and development challenges.
China Country Programme Evaluation (2021-2024)	2024	Country Programme Evaluation (CPE)	AP	Recommendation 5. UNFPA CO should engage and broaden its partnership with the private sector to benefit from knowledge sharing, innovative solutions and resources.	5 (ii) engage with the private sector on specific win-win initiatives, such as in the case of UNFPA collaboration with AGORA, or BIEG during CP9, could potentially unleash financial or in-kind resources that can support UNFPA programming;	Accepted	High	5.2 The China CO will expand partnerships with the private sector and build on successful existing initiatives to support UNFPA programming.	5.2 The China CO will expand partnerships with the private sector and build on successful existing initiatives to support UNFPA programming.
