

Costed Evaluation Plan:						
Programme Title:	Algeria County Programme					
Programme Cycle:	7 th cycle (2022-2026)					
Evidence utilized in the design of the costed plan	The Costed Evaluation Plan for UNFPA Algeria 7 th country Programme is informed by evidences from: lessons learned from the evaluation of Country Programme 2017-2021; the relevant plan of action of the Government for the implementation of the president's program 2020 and its strategic direction on social development ; UN agencies evaluation reports; In-depth analysis of MICS6 data on population dynamics conducted by UNFPA Algeria; research papers and academic articles; UN consultations for the CCA and UNSDCF; Mid-term evaluation of the UN Cooperation Framework 2016-2021; Analysis on LNOBs for the UNSDCF 2022-2025; Annual reports of the 6 th UNFPA Country Programme (2017-2020). Furthermore, the costed evaluation plan was informed by the ICPD+25 national commitments, UNFPA Strategic Plan 2022-2025, and UNFPA evaluation guide.					
CP Areas:	Sexual and Reproductive Health (SRH); Gender Equality & Women's Empowerment (GEWE); Adolescents & Youth (AY); Population Dynamics and data systems.					
Evaluation Title	Purpose of the Evaluation	Start and end date (Month, Year)	Estimated Cost	Source of Funding	Key Evaluation Partners	Is it a joint exercise?
Country Programme Evaluation (2022-2026)	To independently assess the relevance, effectiveness, efficiency and sustainability of UNFPA support. To provide an assessment of the role played by UNFPA country office in UNCT coordination mechanisms and in the reference and thematic groups to enhance the United Nations collective contribution to UNSDCF 2022-2025 and national development plans. To draw key lessons from past and current cooperation and provide clear and actionable strategic recommendations for the next programme cycle.	May 2025-February 2026	50,000 USD	FPA90 (Core)	Ministry of Foreign Affairs Key Institutional sectors Implementing partners UNCT, UNFPA Arab States Regional Office (ASRO), Key donors operating in Algeria Academia and research centers Local CSOs Beneficiaries of UNFPA program	No

Mid-term evaluation of the UNSDCF (2022-2025)	To assess progress towards the achievement of the expected outputs, related targets, and planned interventions, and to identify lessons learned, best practices, as well as challenges and priorities to adjust the framework To provide recommendations that guide the different results groups in order to achieve the jointly defined outputs and outcomes in an effective and timely manner. UNSDCF Evaluation (2022-2026)	To assess the relevance, efficiency and effectiveness of the UN system-wide contribution to development results and progress towards 2030 agenda and the ICPD25 commitments of Algeria. The findings of the evaluation will guide the UNCT's analytical contribution and the strategic planning of the subsequent UN cooperation framework with the Government.	October 2025-February 2026	3000 USD	FPA90 (Core)	UNCT, RC office, Ministry of Foreign Affairs Institutional sectors CSOs Academia and research centers Donors community	Yes
Formative Evaluation of the use of the referral protocol for clinical management of GBV cases	The referral protocol of GBV victims is under development. Its dissemination will be during the period 2022-2023. UNFPA will conduct a pilot test with service providers to assess their capacity to use the protocol and ensure quality clinical management of women victims of violence. The results will help to adjust the tool before the rollout and wide dissemination in health structures, and tailor the training of service providers on the tool. It will also help identify challenges and determine the acceptability of the tool by all concerned actors in the multi sectoral coordination.	September-November 2022	6000 USD	Non-Core Resources	Ministry of Health/Directorate of Population Pilot health structures	No
Evaluation Activities (Not Evaluations)						
Strengthening Country Office capacity on evaluation	To Conduct Evaluation Training for CO Personnel. The evaluation of the current CP has identified lessons learned and the necessity to develop the capacity of the whole program team and not only one M&E focal point. Training will be organized with support from	March 2022	5000USD	FPA90 (Core)	UNFPA Country Office Arab States Regional Office	No

	regional office, and the M&E system will be reviewed and restructured in the Country Office					
National Capacity Development on evaluation	<ul style="list-style-type: none"> • Training workshop on the use of evaluation will be conducted for relevant implementing partners in Algeria. • Provide deliberate avenue for the engagement of young and emerging evaluators in the planned CPE of the 7th Country Programme and other related activities as part of the global Eval4Action campaign to enhance investment in national evaluation capacity development and the production of high-quality, country-led evaluations to accelerate the delivery of the SDGs in the Decade of Action. • Provide support to the Directorate of Population to establish its M&E system. 	March 2023	10000USD	FPA90 (Core) Non-Core Resources	UNFPA Country Office Arab States Regional Office IPs	Yes
