

## COMMENTS ON THE UNFPA DRAFT COUNTRY PROGRAMME DOCUMENT FOR INDONESIA

*Second regular session 2025*

Comments by Germany	UNFPA country/regional office response to comments
Germany supports the proposed CPD for Indonesia, and especially appreciates the focus on improving the quality of maternal and newborn care, including EmONC, through strengthening the competencies of midwives. Furthermore, Germany appreciates the focus on reducing violence and harmful practices committed against women and girls, as a key pathway to increasing gender equality.	UNFPA thanks Germany for the kind comments and extends appreciation for reviewing the new country programme for Indonesia. UNPFA Indonesia is looking forward to strengthening cooperation with Germany in these important initiatives, notably in improving the quality of maternal care, reducing violence against women and girls, and ending harmful practices.
