Revision of UNFPA Financial Regulations and Rules

Report of the Executive Director

Summary

The General Assembly, through resolution 60/283, approved the adoption of the International Public Sector Accounting Standards (IPSAS) to replace the United Nations System Accounting Standards (UNSAS). IPSAS represents international best practice in accounting for the public-sector and not-for-profit organizations. At its first regular session 2007, the Executive Board adopted decision 2007/10 which took note of the transition to IPSAS.

Under IPSAS, UNFPA will operate on a full accrual method of accounting. IPSAS will improve the quality and comparability of financial information across the United Nations system resulting in improved transparency and accountability.

Following the adoption of Executive Board decision 2009/27, effective 1January 2010, UNFPA issued a revised set of Financial Regulations and Rules that allowed the organization to change some of its accounting policies under UNSAS and move to full IPSAS compliance in 2012.

In 2011, UNFPA participated in a joint exercise with UNDP and UNICEF to identify revisions to their regulations and rules. UNFPA identified new definitions and new regulations and rules to allow the organization to adopt in 2012 the new cost classification categories approved by the Executive Board in decision 2010/32. Additionally, UNFPA has updated the existing definitions and aligned its Financial Regulations and Rules based on the following: Executive Board decisions, terminology updates, accounting policies and business practices.

The Executive Board may wish to take note of the present report (DP/FPA/2012/3) and approve the revisions to the UNFPA Financial Regulations and take note of the changes to the Financial Rules contained therein.

I. Introduction

- 1. Effective 1 January 2010, UNFPA issued a revised set of its Financial Regulations and Rules that allowed the organization to change some of its accounting policies under United Nations System Accounting Standards (UNSAS) drawn from International Public Sector Accounting Standards (IPSAS) requirements and move towards full IPSAS compliance in 2012.
- 2. In 2011, UNFPA participated in a joint exercise with UNDP and UNICEF to identify revisions to their regulations and rules. UNFPA identified new definitions and new regulations and rules to allow the organization to adopt in 2012 the new cost classification categories approved by the Executive Board in decision 2010/32. Additionally, UNFPA has updated the existing definitions and aligned its Financial Regulations and Rules based on the following: Executive Board decisions, terminology updates, accounting policies and business practices.

II. Changes in terminology

- 3. Proposed revisions to the regulations and rules include changes in terminology that reflect wording used in the context of the new cost classification categories and current business practices. Effective 2012, UNFPA will use the term "institutional budget" instead of the current term "support budget".
- 4. The terms "project", "project document", and "intercountry programme" are no longer used in the context of programming activities. UNFPA now uses the terms "programme", "workplan", "relevant programme document" and "global and regional programme". The phrase "executing agency" or "executing agencies" has been deleted since UNFPA only deals with "implementing partners" in the context of programming activities. The word "gross" is no longer used in the phrase "gross appropriation" in the context of budgetary contingency provision.
- 5. The terms "committing officer" and "verifying officer" are no longer used in the context of the segregation of duties in approving business or financial transactions. UNFPA now uses the term "approving officer".
- 6. Revisions to definitions, regulations and rules with terminology changes only are not included in this report but are contained in the annex available on the UNFPA website.

7. The following regulations and rules have only minor terminology changes pertaining to a word, words or phrasing and are not contained in the present document due to word count limitations.
