

Multi-year Costed Evaluation Plan 2026-2029

UNFPA Independent Evaluation Office

Informal consultation

27 January 2026

Purpose

1. Provides a coherent and forward-looking framework to guide the commissioning, management, and use of evaluations across UNFPA.
2. Promotes and enhances *organizational learning, accountability, and evidence-based decision-making* at global, regional, and country levels.
3. Updates and extends the previous evaluation plan to remain aligned with evolving strategic priorities and a rapidly changing operating environment.
4. Combines multi-year predictability with built-in review points to allow recalibration as the context evolves.

Scope

The plan covers three categories of evaluative work:

Centralized evaluations

- Assess issues of strategic significance, organizational priorities and performance, and development effectiveness
- Include joint and system-wide evaluations as well as selected country-level emergency responses
- Managed and conducted by the Evaluation Office with support from thematic experts

Decentralised programme evaluations

- Commissioned by regional and country offices, and HQ business units;
- Focus on regional and country programme performance
- Conducted by external evaluators

Other evaluative exercises

- Meta-syntheses to consolidate learning on cross-cutting themes from multiple evaluations

Consultative process

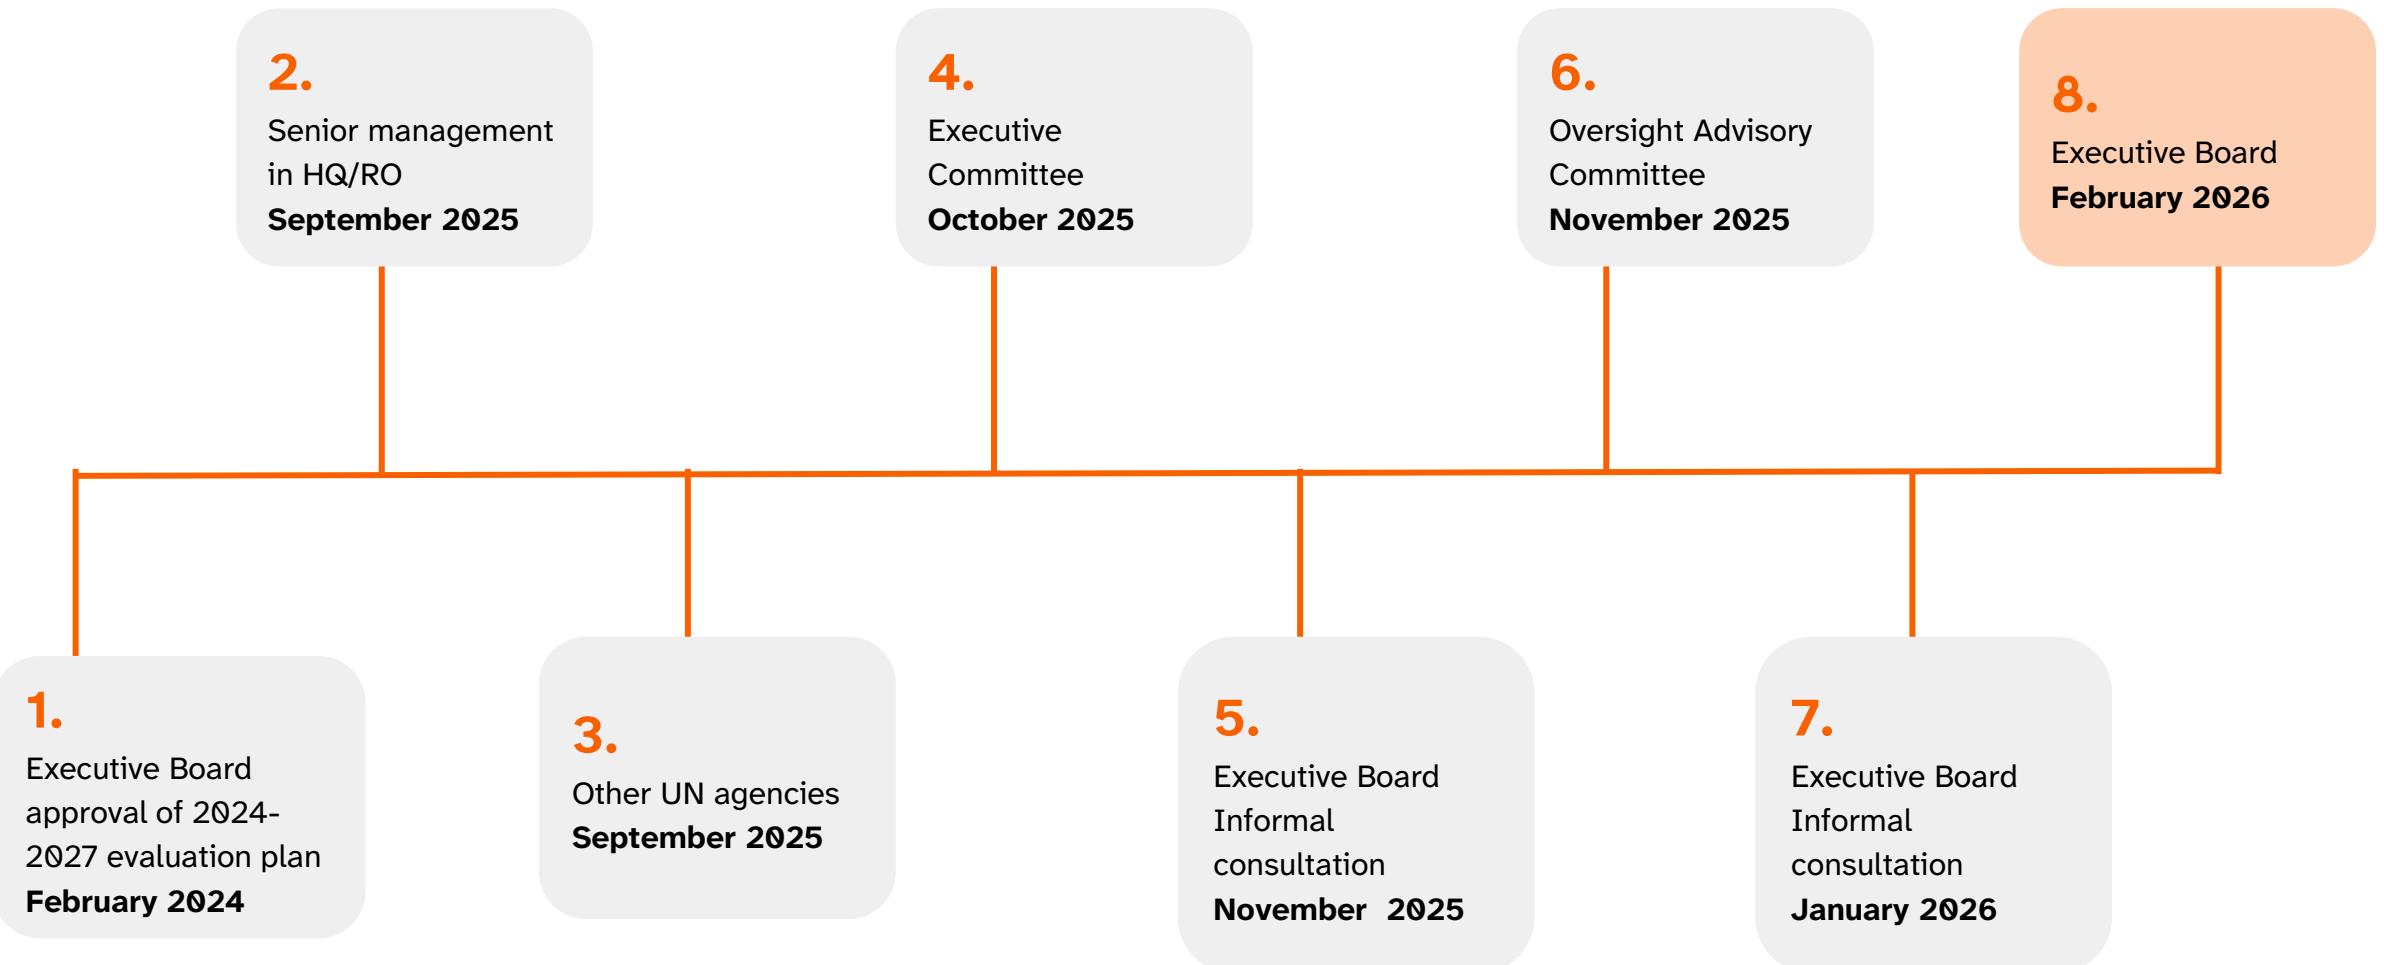

The plan incorporates:

- Evaluations already approved by the Board under the previous 2024–2027 plan
- Additional evaluations identified through:
 - Evidence-gap analysis, assessing centralized evaluations undertaken during 2018–2025
 - Consultations with key stakeholders
 - Identification of opportunities for joint, inter-agency, and system-wide evaluations

Phased implementation approach:

- Evaluations planned for 2026–2027 are confirmed
- Evaluations for 2028–2029 are indicative and will be re-confirmed in early 2027

Consultative process

Innovation

An *Evaluative Forward Initiative*, piloting new evaluation management modalities.

Represents a strategic shift from a model of primarily outsourced evaluations to one of

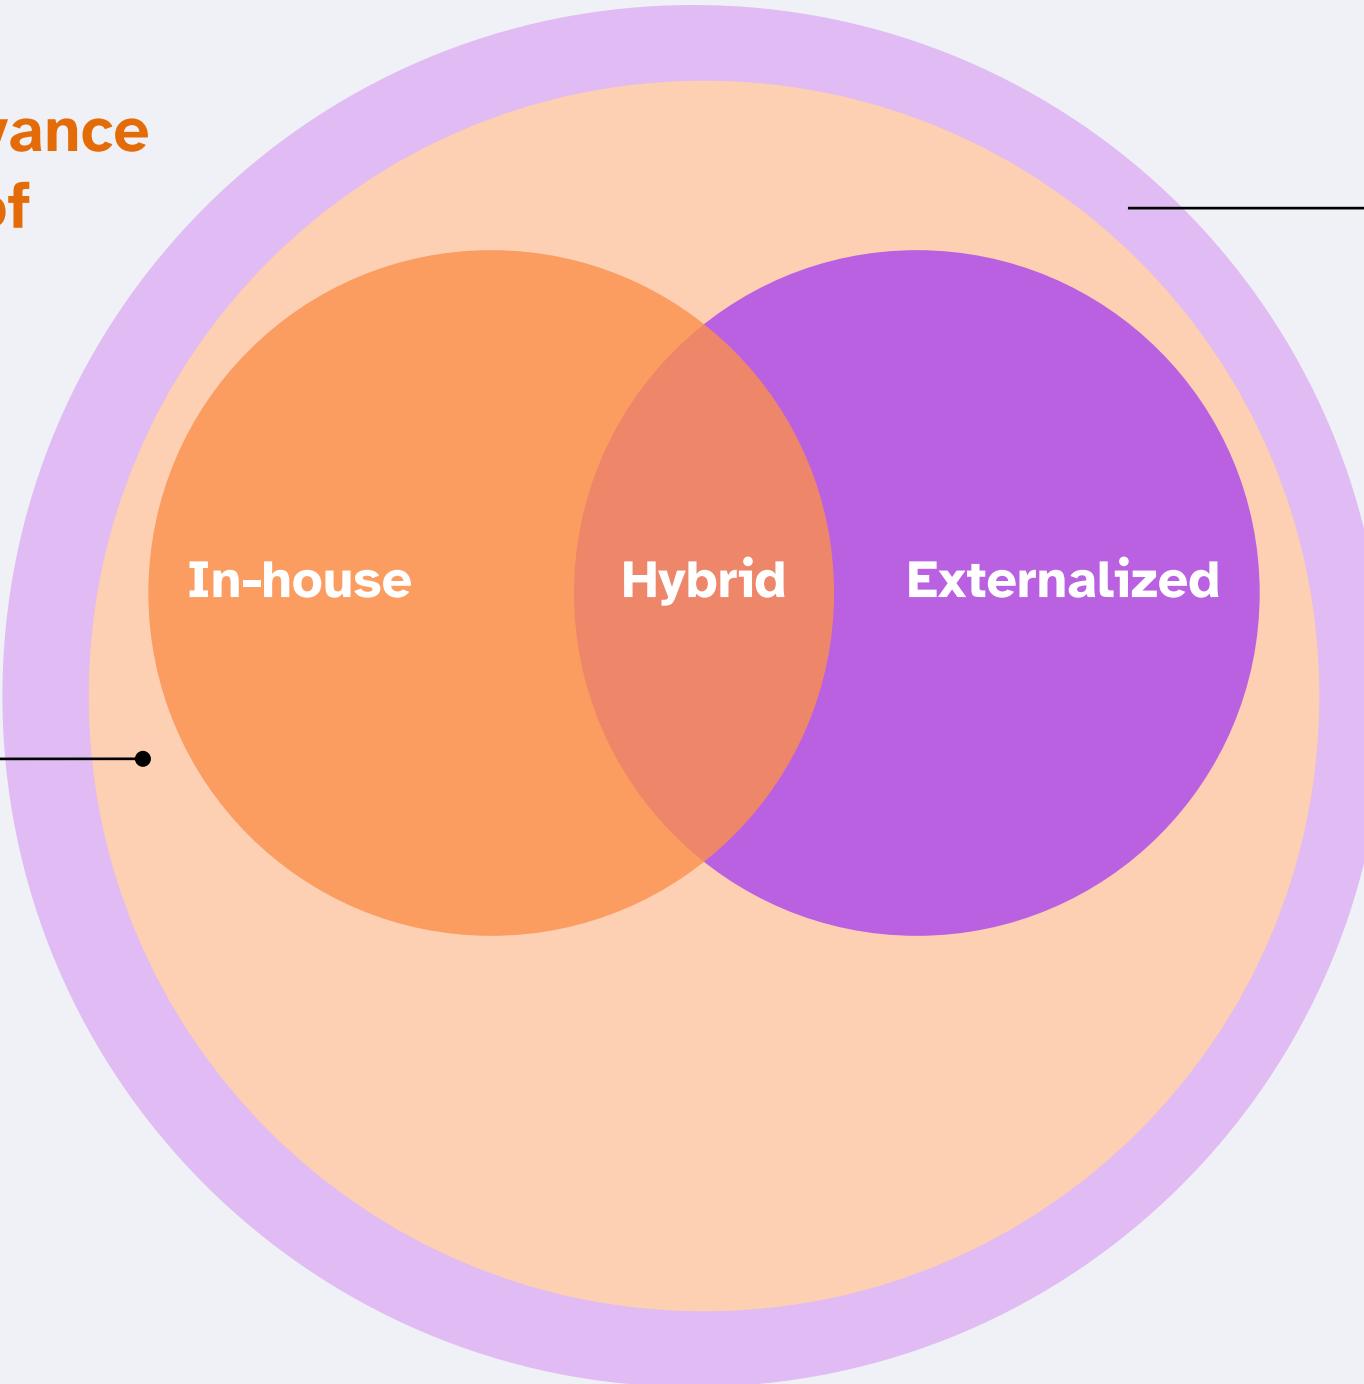

- Evaluations led and managed by the Independent Evaluation Office
- Active engagement and co-authorship with external thematic experts

This shift aims to enhance

- Strategic relevance and timeliness
- Methodological rigor and cost-efficiency
- Coherence and learning across the evaluation portfolio

**Enhancing relevance
and efficiency of
evaluations**

Scale up AI use

- Enhanced and reimaged audience-focused communication
 - Report length and structure
 - Annexes
