

OUR PARTNERSHIP

A partnership on demographic resilience

Japan is deeply committed to addressing demographic shifts, including aging and low fertility, through active collaboration with UNFPA. The mission and work of the Japan Parliamentarians Federation for Population (JPFP) underscore Japan's strong dedication to addressing global population challenges in partnership with organizations like UNFPA.

A steadfast humanitarian supporter

As humanitarian needs escalate, the Government of Japan has contributed record-level funding to UNFPA. Amid war in Ukraine, funding from Japan enabled the procurement of 70 tonnes of critical pharmaceuticals and medical supplies for 93 maternity hospitals. UNFPA counts on top humanitarian donors like Japan to mobilize support and protect the lives of millions – including the most vulnerable.

Committed to the core

Core donors are indispensable to UNFPA's mission. Core funding is necessary for effectively addressing urgent needs, sustaining long-term programs, promoting universal health coverage, including sexual and reproductive health, gender equality, and women's empowerment globally. By prioritizing core funding, Japan empowers UNFPA to achieve our transformative results and ensure no one is left behind.

ABOUT UNFPA

UNFPA is the United Nations sexual and reproductive health agency. Our mission is to deliver a world where every pregnancy is wanted, every childbirth is safe and every young person's potential is fulfilled.

All UNFPA funding is voluntary – we rely on partners and donors like you to champion our mission and support our programmes!

Our three transformative results:

end preventable maternal deaths

end the unmet need for family planning

end gender-based violence and all harmful practices

UNFPA and Japan

A partnership for women and girls

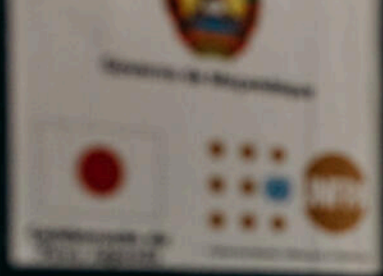

Japan's steadfast support to UNFPA means more women and girls worldwide are empowered to realize their full potential while being shielded from violence and harm.
