

OUR PARTNERSHIP

A global force for health and equality

Germany is a steadfast advocate for investing in gender equality and advancing sexual and reproductive health and rights (SRHR). Germany has become one of UNFPA's strongest vocal political partners and a reliable front runner of the SRHR agenda supporting UNFPA with flexible and earmarked funding in addition to technical support.

A champion for flexible funding

In 2022, Germany was the third-largest contributor to UNFPA's core resources, enabling the organization to mount an agile and efficient response to unforeseen challenges, including in humanitarian settings. Germany is also a main donor to UNFPA's Maternal and Newborn Health Thematic Fund and contributes to the UNFPA Supplies Partnership for family planning as well as the UNFPA-UNICEF Joint Programme on the Elimination of Female Genital Mutilation.

ABOUT UNFPA

UNFPA is the United Nations sexual and reproductive health agency. Our mission is to deliver a world where every pregnancy is wanted, every childbirth is safe and every young person's potential is fulfilled.

All UNFPA funding is voluntary – we rely on governments and other partners to support our programmes.

Our three transformative results:

end preventable maternal deaths

end the unmet need for family planning

end gender-based violence and all harmful practices

UNFPA and Germany

A partnership for women and girls

Thanks to Germany's strong partnership with UNFPA, more women and girls around the world are enjoying healthier, more fulfilled lives, free from violence.

See how Germany is making a difference.
