

OUR PARTNERSHIP

A champion for leaving no one behind

Finland is a global leader in promoting sexual and reproductive health and rights of women and girls, including persons with disabilities, and is one of UNFPA's largest core supporters. Together, Finland and UNFPA work to ensure that no one is left behind.

A key partner for core funding

Finland's strong prioritization of core funding enables UNFPA to respond quickly and effectively where it is most needed, and to pursue our transformative results. Finland's long-standing support helps improve the wellbeing of women, girls and young people, and empower young women and adolescent girls, including those living with disabilities, to uphold their right to live free from violence and harmful practices.

Advancing innovation for sexual and reproductive health services

With support from Finland, UNFPA's Equalizer Accelerator Fund is supporting innovations by, for and with women.

ABOUT UNFPA

UNFPA is the United Nations sexual and reproductive health agency. Our mission is to deliver a world where every pregnancy is wanted, every childbirth is safe and every young person's potential is fulfilled.

All UNFPA funding is voluntary – we rely on governments and other partners to support our programmes.

Our three transformative results:

end preventable maternal deaths

end the unmet need for family planning

end gender-based violence and all harmful practices
