

OUR PARTNERSHIP

A global force for health and gender equality

As UNFPA's largest donor, the United States of America is an essential partner supporting UNFPA's work towards pursuing our three transformative results to end unmet needs for contraception, preventable maternal deaths, and gender-based violence and harmful practices.

A partner in times of crisis

In the face of sudden-onset crises, the United States is an indispensable partner in delivering life-saving humanitarian assistance. In 2022, the United States was UNFPA's top humanitarian contributor, helping to provide urgently needed supplies and care in countries such as Afghanistan, Ethiopia, Haiti and Ukraine.

United States funding makes a difference

The United States' contributions enable UNFPA to provide expertise in responding to gender-based violence in crisis-affected communities, strengthen global standards for accountability, and ensure sexual and reproductive health service provision, among other activities.

ABOUT UNFPA

UNFPA is the United Nations sexual and reproductive health agency. Our mission is to deliver a world where every pregnancy is wanted, every childbirth is safe and every young person's potential is fulfilled.

All UNFPA funding is voluntary – we rely on governments and other partners to support our programmes.

Our three transformative results:

end preventable maternal deaths

end the unmet need for family planning

end gender-based violence and all harmful practices
